

Google Dorking

(Using search engines to find hidden information online)

What is Google dorking?

- Using special search terms while using a search engine
- Can help you find information that is not readily available
- Filter searches
- Provides much more refined results
- Highly customizable searches
- Works on other search engines

Common uses

- Refining search results
- Find information in databases
- Find log files that are exposed to the internet
- Find vulnerable web pages
- Find email lists
- Finding unsecured webcams

CAPTCHA

- Google knows that people use their search engines to find hidden information
- Some people will automate Google dorking in order to find information more quickly
- In an attempt to prevent this, Google will periodically require you to perform a CAPTCHA check.

Dodgers catcher Will Smith hits a two-run home run against the Houston Astros on June 28 at Dodger Stadium. Will Smith is one of the best all-around catchers in baseball in the eyes of Dodgers manager Dave Roberts, who for years has touted Smith's two-way skills as a consistent run-producer and superb defender.

Examples:

Regular Search

A screenshot of a Google search for the term "passwords". The search bar shows "passwords" with a clear button (X), a microphone icon, a Google Assistant icon, and a search icon. Below the search bar are buttons for "Examples", "View saved", "List", "Manager", "Generator", "WiFi", "And accounts", and "Images". The search results show "About 7,100,000,000 results (0.39 seconds)". The first result is from Google, titled "Google Password Manager", with a description: "Manage your saved passwords in Android or Chrome. They're securely stored in your Google Account and available across all your devices." Below this is a section "People also ask" with four questions: "Where can I find my saved passwords?", "How do I find my passwords on my Iphone?", "How do I delete saved passwords on Google?", and "Are my passwords safe with Google?". Each question has a downward arrow. At the bottom of this section is a "Feedback" link. The next result is from Wikipedia, titled "Password - Wikipedia", with a description: "A password, sometimes called a passcode is secret data, typically a string of characters, usually used to confirm a user's identity." The final result is from Wired, titled "The Best Password Managers to Secure Your Digital Life", with a description: "The Best Password Managers to Secure Your Digital Life. Keep your logins locked down with our favorite apps for PC, Mac, Android, iPhone, and web browsers."
